II. INTRODUCTION

A. PURPOSE OF THIS REQUEST FOR PROPOSALS

NMDOT is requesting proposals from qualified firms or Offerors for the purpose of hiring a Contractor(s) to develop a Wildlife Corridors Action Plan that provides comprehensive guidance to NMDOT and New Mexico Department of Game and Fish (NMDGF) for identifying, prioritizing and maintaining important areas for wildlife movement, and the development of a list of priority projects based on the Action Plan. The overall intent of the Action Plan is to comply with the Wildlife Corridors Act (Senate Bill 228) that was signed into law in March 2019.

B. SCOPE OF WORK

The selected Contractor shall perform the following services:

1. Data Gathering

The Contractor(s) shall acquire as much applicable data as possible to develop the Action Plan. Potential sources of applicable data are listed below and may include additional resources:

A. NMDOT
   1. Overall crash data and wildlife-vehicle collisions
   2. Carcass collection data from patrol yards as available

B. New Mexico Department of Game and Fish (NMDGF)
   1. State Wildlife Action Plan
   2. Big Game Habitat Movement/Migration Data from expert opinion maps, habitat-based models and GPS radio collar movement data
   3. New Mexico Crucial Habitat Assessment Tool (NM-CHAT)
   4. US Forest Service Rocky Mountain Research Station (Flagstaff) state-wide linkage assessment for elk, bighorn sheep, pronghorn and black bear
   5. Cougar and black bear pelt tag database, which includes roadkill records
   6. Other applicable information

C. Natural Heritage New Mexico
   1. Big Game Migration/Movement Data collected for Doorways Report
   2. Biotics Elements Occurrence data
   3. New Mexico Crucial Habitat Assessment Tool (NM-CHAT) Terrestrial Species of Concern and Species of Economic and Recreational Importance data
2. **Data Analysis**

Development of the Action Plan will involve two analysis approaches. Wildlife-vehicle collision hotspot analysis has been done in other western States using the Hotspot Analysis Tool (Getis-Ord Gi) in ArcGIS. The second analysis identifies habitat-based wildlife-vehicle conflict areas. Some of these areas may not be identified in the first analysis. It combines data on driver safety with ecological data. Driver safety data could include NMDOT roads layer, mileposts, road route layer, Average Annual Daily Traffic (AADT), percent crashes that involve big game and other applicable data. Ecological data could include big game calving and fawning areas, winter range areas, movement corridors and other wildlife concentration areas (e.g., National Parks and National Wildlife Refuges). Areas identified by this method could become wildlife-vehicle collision hotspots in the future.

3. **Field Reconnaissance of Priority Areas**

Perform general field reconnaissance of the top-10 wildlife-vehicle collision hotspots and the top-10 wildlife-vehicle conflict areas (safety-ecological analysis). Existing field conditions should be documented along with important factors such as the number and sizes of existing drainage structures, evidence of wildlife use (e.g., tracks, scat, wildlife trails), surrounding topography, land use, landownership and other factors. This field reconnaissance will help prioritize projects within the Wildlife Corridors Project List, per Section 4 of the Wildlife Corridors Act.

4. **Benefit-Cost Analysis**

Perform a benefit-cost analysis on the top-5 wildlife-vehicle collision hotspots and the top-5 wildlife-vehicle conflict areas (safety-ecological analysis). An estimate of benefits could include predicted reduction in wildlife-vehicle collisions while taking into consideration crash severity, crash costs from NMDOT Annual Crash Report, value of big game and other applicable benefits. Costs of a potential project should consider the nature of the project including any proposed crossing structure construction, annual maintenance costs and other applicable factors. The purpose of this analysis would be to prioritize and refine the Wildlife Corridors Project List. It should not be used as the sole prioritizing analysis but a single factor to consider.

Two approaches could be used in this analysis. One method would determine a benefit-cost ratio, while a second method would determine how long it would take a project to pay for itself.

5. **Action Plan Development**

The Action Plan should address all components identified in the Wildlife Corridors Act. These components include:
A. Identify highway segments that pose a risk to:
   1. Big game migration/movement
   2. Traveling public
B. Identify other human-caused barriers, as applicable
C. Information about habitat and movement needs of big game species
D. Projections on anticipated effects of drought and other stressors will have on wildlife habitat, dispersal and movement, such as the climate change chapter in the 2016 State Wildlife Action Plan for New Mexico
E. Information on habitat quality needed to support and maintain viable populations of wildlife; citation from NMDGF State Wildlife Action Plan
F. Information on how increased movement of species could benefit overused and highly impacted habitat, as applicable
G. Maps that identify locations of:
   1. Existing wildlife populations on public lands
   2. Existing wildlife crossings
   3. Areas requiring additional research or monitoring, as applicable
H. Protocols for post-completion monitoring of wildlife corridors projects
I. Economic benefits anticipated from preserving wildlife movements and reducing wildlife-vehicle collisions
J. Opportunities to collaborate with and enter into JPA with tribes and federal agencies
K. Wildlife corridors project list (prioritized)
L. Additional information deemed necessary

6. Public Involvement Plan

A Public Involvement Plan (PIP) must be submitted prior to the first public information meeting. The PIP is expected to be an evolving document and process. The PIP should contain initial identification of stakeholders including tribes, non-profits and special interest groups, techniques for communicating with them, goals of working with the community and stakeholders, analyses of the background context, opportunities to express local values and discussion of specific consideration of potential issues, incorporation of local knowledge of wildlife-vehicle collision hotspots, big game migration and movement corridors, and possible methods for addressing concerns.

7. Wildlife Corridors Project List

As part of the Action Plan, a Wildlife Corridors Project List shall be produced per Section 4 of the Wildlife Corridors Act. A Licensed engineer shall be utilized to aid
in determining the feasibility and constructability of proposed wildlife corridors infrastructure. This project list shall be prioritized based on the following criteria listed in order of importance:

A. Potential to reduce wildlife-vehicle collisions and enhance safety to the traveling public
B. The value of proposed infrastructure in improving wildlife corridors
C. The feasibility and constructability of proposed wildlife corridors infrastructure
D. The potential costs and economics of wildlife corridors infrastructure, including benefits or other effects on local communities
E. Local community support for proposed wildlife corridors infrastructure
F. The value of the project to native big game and other native species
G. Surrounding land-use and ownership, especially tribal lands, and an evaluation of the need for conservation easements or other real estate instrument necessary to maintain the viability of a proposed wildlife corridors infrastructure.

**Deliverables**

1. Submit a draft PIP within 3-weeks after receiving the Notice to Proceed.
2. Submit a final PIP within 2-weeks after receiving review comments from NMDOT and NMDGF.

The bidder must have 5-years of experience in wildlife-vehicle collision mitigation and roadway ecology. This must include experience in analyzing wildlife-vehicle collision data using ArcGIS. It is not a requirement but experience performing Hot Spot Analysis (Getis-Ord Gi) in ArcGIS is preferred. The bidder must also have 5-years experience in developing and implementing public involvement plans, and facilitating public and stakeholder meetings.

The Procurement Manager will not disclose or make public any pages of a proposal on which the potential Offeror has stamped or imprinted "proprietary" or "confidential" subject to the following requirements:

   B. Proprietary or confidential data shall be readily separable from the proposal in order to facilitate eventual public inspection of the non-confidential portion of the proposal.

   C. Confidential data is restricted to:

   1. confidential financial information concerning the Offeror’s organization;
   2. and data that qualifies as a trade secret in accordance with the Uniform Trade Secrets Act, NMSA 1978 § 57-3A-1 to 57-3A-7.

Unless the Offeror takes legal action to prevent the disclosure, the proposal will be so disclosed. The proposal shall be open to public inspection subject to any continuing prohibition on the disclosure of confidential data.

10. **No Obligation**

This RFP in no manner obligates the Agency or any of its Programs to the use of any Offeror’s services until a valid written contract is awarded and approved by appropriate authorities.
11. Termination

This RFP may be canceled at any time and any and all proposals may be rejected in whole or in part when the Procurement Manager determines such action to be in the best interest of the Agency.

12. Sufficient Appropriation

Any contract awarded as a result of this RFP process may be terminated if sufficient appropriations or authorizations do not exist. Such termination will be effected by sending written notice to the Contractor. The Agency’s decision as to whether sufficient appropriations and authorizations are available will be accepted by the Contractor as final.

13. Legal Review

NMDOT requires that all Offerors agree to be bound by the General Requirements contained in this RFP. Any Offeror concerns must be promptly brought to the attention of the Procurement Manager.

14. Governing Law

This RFP and any agreement with an Offeror which may result from this procurement shall be governed by the laws of the State of New Mexico.

15. Prohibited Bidding

Pursuant to Section 10-16-13 NMSA 1978 no state agency or political subdivision of the State shall accept a bid or proposal from a person who directly participated in the preparation of specifications, qualifications or evaluation criteria on which the specific competitive bid or proposal was based.

A person accepting a bid or proposal on behalf of a state agency or political subdivision of this State shall exercise due diligence to ensure compliance with this section.

16. Consent to Jurisdiction and Venue

If a recipient of this RFP chooses to offer a proposal, the Offeror understands and agrees that by submitting such proposal to the Agency, they thereby consent to and agree to the exclusive jurisdiction of the Courts of the State of New Mexico for the resolution of any disputes arising under or resulting from the contract selection and/or approval process in response to this RFP, or any dispute arising under or resulting from the performance of any contract resulting from this RFP, which cannot be resolved informally.
The Offeror, by submitting such proposal, waives any objection to the personal jurisdiction of the Courts of the State of New Mexico over the Offeror. The Contract between NMDOT and the Contractor will follow the format specified by the Agency and contain the terms and conditions as set forth in “Appendix A” (Contract for State Funding). NMDOT reserves the right to negotiate with a successful Offeror provisions in addition to those contained in this RFP.

The Agency discourages exceptions from the contract terms and conditions as set forth in the RFP Sample Contract. Such exceptions may cause a proposal to be rejected as nonresponsive when, in the sole judgment of the Agency (and its evaluation team), the proposal appears to be conditioned on the exception, or correction of what is deemed to be a deficiency, or an unacceptable exception is proposed which would require a substantial proposal rewrite to correct. Should an Offeror object to any of the Agency's terms and conditions, as contained in this Section or in “Appendix B”, that Offeror must propose specific alternative language. The Agency may or may not accept the alternative language.

General references to the Offeror's terms and conditions or attempts at complete substitutions are not acceptable to NMDOT and will result in disqualification of the Offeror's proposal.

The contents of this RFP, as revised and/or supplemented, and the successful Offeror's proposal will be incorporated into and become part of the Contract. In the event the Offeror’s proposal conflicts with the RFP, the RFP governs, and, in the event the Agreement conflicts with the proposal, the Agreement governs.

Offerors must provide a brief discussion of the purpose and impact, if any, of each proposed change followed by the specific proposed alternate wording. If an Offeror fails to propose any alternate terms and conditions during the procurement process (the RFP process prior to selection as successful Offeror), no proposed alternate terms and conditions will be considered later during the negotiation process. Failure to propose alternate terms and conditions during the procurement process
(the RFP process prior to selection as successful Offeror) is an explicit agreement by the Offeror that the contractual terms and conditions contained herein are accepted by the Offeror.

19. **Offeror's Terms and Conditions**

Offerors must submit with the proposal a complete set of any additional terms and conditions which they expect to have included in a contract negotiated with NMDOT.

20. **Contract Deviations**

21. **Contract Negotiations**

Contract negotiations may be held in accordance with applicable provisions of 1.4.1.39 NMAC Procurement Code Regulations.

22. **Offeror Qualifications**

The Evaluation Committee may make such investigations as necessary to determine the ability of the Offeror to adhere to the requirements specified within this RFP. 23. **Right to Waive Minor Irregularities**

The Evaluation Committee reserves the right to waive minor irregularities. The Evaluation Committee also reserves the right to waive mandatory requirements provided that all of the otherwise responsive proposals failed to meet the same mandatory requirements and the failure to do so does not otherwise materially affect the procurement. This right is at the sole discretion of the Evaluation Committee.

24. **Change in Contractor Representatives**

The NMDOT reserves the right to require a change in contractor representatives if the assigned representative(s) is (are) not, in the opinion of the NMDOT, adequately meeting the needs of the Agency.

29. **Confidentiality**

Any confidential information provided to, or developed by, the Contractor in the performance of the contract resulting from this RFP shall be kept confidential and shall not be made available to any individual or organization by the Contractor without the prior written approval of the Agency. If the Department finds that the services or items of tangible personal property are not acceptable, it shall, within thirty days after the date of receipt of written notice from the Contractor that payment is requested, provide to the Contractor a letter of exception explaining the defect or objection to the services or delivered tangible personal property along with details of how the Contractor may proceed to provide

After the thirtieth day from the date that written certification of acceptance is issued, late payment charges shall be paid on the unpaid balance due on the contract to the Contractor at the rate of one and a half (1½) percent per month. The Department shall have the option of extending the Agreement. In no event shall the total term of the Agreement, including extensions, exceed four (4) years.

5. Termination.

The Department has the option of canceling this Agreement by giving thirty (30) days written notice to the Contractor. Upon receipt of the “Notice of Cancellation,” the Contractor shall immediately suspend any further work unless otherwise directed by the Department in writing. By such termination neither party may nullify obligations already incurred for performance or failure to perform for the work rendered prior to the date of termination of this Agreement. However, neither party shall have any obligation to perform services or make payment for services rendered after such date of termination.

Either party may terminate the Agreement for cause based upon any material breach of this Agreement by the other party, provided that the non-breaching party shall give the breaching party written notice specifying the breach and shall afford the breaching party a reasonable opportunity to correct the breach. If within thirty (30) days after receipt of a written notice, the breaching party has not corrected the breach or, in the case of a breach which cannot be corrected in thirty (30) days, the breaching party has not begun and proceeded in good faith to correct the breach, the non-breaching party may declare the breaching party in default and terminate the Agreement effectively immediately. The non-breaching party shall retain any and all other remedies available to it under law.

11. Appropriations and Authorizations.

The terms of this Agreement are contingent upon sufficient appropriations and authorizations being made by the Legislature of New Mexico, or the Congress of the United States if federal funds are involved, for performance of this Agreement. If sufficient appropriations and authorizations are not made by the Legislature or the Congress of the United States if federal funds are involved, this Agreement shall terminate upon written notice being given by the Department to the Contractor. The Department is expressly not committed to expenditure of any funds until such time as they are programmed, budgeted, encumbered, and approved for expenditure by the Department. The Department’s decision as to whether its funds are available shall be accepted by the Contractor and shall be final.

The Contractor, upon final payment of the amount due under this Agreement, releases the Department, its officers, and employees, and the State of New Mexico from all liabilities, claims and obligations whatsoever arising from or under this Agreement. This form must be filed even if the contract qualifies as a small purchase or a sole source contract. The prospective contractor must disclose whether they, a family member or a representative of the prospective contractor has made a campaign contribution to an applicable public official of the state or a local public body during the two years prior to the date on which the contractor submits a proposal or, in the case of a sole source or small purchase contract, the two years prior to the date the contractor signs the contract, if the aggregate total of contributions given by the prospective contractor, a family member or a representative of the prospective contractor to the public official exceeds two hundred and fifty dollars ($250) over the two year period.

Furthermore, the state agency or local public body shall void an executed contract or cancel a solicitation or proposed award for a proposed contract if: 1) a prospective contractor, a family member of the prospective contractor, or a representative of the prospective contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official’s employees during the pendency of the procurement process or 2) a prospective contractor fails to submit a fully completed disclosure statement pursuant to the law.

THIS FORM MUST BE FILED BY ANY PROSPECTIVE CONTRACTOR WHETHER OR NOT THEY, THEIR FAMILY MEMBER, OR THEIR REPRESENTATIVE HAS MADE ANY CONTRIBUTIONS SUBJECT TO DISCLOSURE.

The following definitions apply:

“Applicable public official” means a person elected to an office or a person appointed to complete a term of an elected office, who has the authority to award or influence the award of the contract for which the prospective contractor is submitting a competitive sealed proposal or who has the authority to negotiate a sole source or small purchase contract that may be awarded without submission of a sealed competitive proposal.

“Campaign Contribution” means a gift, subscription, loan, advance or deposit of money or other thing of value, including the estimated value of an in-kind contribution, that is made to or received by an applicable public official or any person authorized to raise, collect or expend contributions on that official’s behalf for the purpose of electing the official to either statewide or local office. “Campaign Contribution” includes the payment of a debt incurred in an election campaign, but does not include the value of services provided without compensation or unreimbursed travel or other personal expenses of individuals who volunteer a portion or all of their time on behalf of a candidate or political committee, nor does it include the administrative or solicitation expenses of a political committee that are paid by an organization that sponsors the committee.
“Family member” means spouse, father, mother, child, father-in-law, mother-in-law, daughter-in-law or son-in-law.

“Pendency of the procurement process” means the time period commencing with the public notice of the request for proposals and ending with the award of the contract or the cancellation of the request for proposals.

“Person” means any corporation, partnership, individual, joint venture, association or any other private legal entity.
