Press Release

NMDOT to install new four-way stop signs at N.M. 18 and N.M. 128 intersection in Jal

Jal – The New Mexico Department of Transportation (NMDOT) District Two will be installing four-way stop signs at the intersection of N.M. 18 and N.M. 128 (Kansas Street) near the town of Jal. Installation will be complete Monday, April 1, 2013.

The NMDOT traffic study done last month at the intersection determined that additional safety measures were needed for the intersection, with increased traffic volume and nearly a 50/50 percent traffic split between north-south and east-west traffic. Also included in the project are stop ahead pavement markings and warning signs and rumble stripes.

Local officials requested a study for the intersection during the regional transportation planning meeting late last year, to determine if the intersection warranted a four-way stop.

The NMDOT is committed to the safety of the traveling public.
