

TABLE OF CONTENTS

100	INTRODUCTION	100-1
100.1	Purpose of the Design Manual	100-1
100.2	Intended Users	100-1
100.3	Description of Chapters	100-2
100.4	Updates	100-2
110	PROJECT DEVELOPMENT OVERVIEW	110-1
110.1	General	110-1
110.2	References	110-1
	110.2.1 Long-Range Planning References	110-1
	110.2.2 Near-Term Planning References	110-1
	110.2.3 Project-Specific References	110-2
110.3	Project Development Sequence	110-2
	110.3.1 Planning	110-13
	110.3.1.1 Long-Range Planning	110-13
	110.3.1.2 Near-Term Planning	110-13
	110.3.1.3 Project Definition	110-14
	110.3.2 Phase I, Project Scoping, Conceptual, and Preliminary Design	110-14
	110.3.2.1 Scoping Report	110-14
	110.3.2.2 Location Study Procedures (Phases IA and IB)	110-15
	110.3.2.3 Phase IC, Environmental Documentation	110-15
	110.3.2.4 Phase ID, Preliminary Design	110-15
	110.3.3 Phase II, Final Design	110-16
	110.3.4 Phase III, Construction	110-16
120	PLANNING AND PROGRAMMING	120-1
120.1	General	120-1
120.2	References	120-2
	120.2.1 Specific NMDOT Planning Resources	120-2
120.3	Definitions	120-4
120.4	Major Planning Efforts	120-5
	120.4.1 Long-Range Planning	120-5
	120.4.2 Near-Term Programming	120-6
	120.4.3 Project Definition	120-7
120.5	Documentation	120-8

130	CONCEPTUAL DESIGN AND ENVIRONMENTAL REVIEW	130-1
130.1	General	130-1
130.2	References	130-2
	130.2.1 NMDOT-Specific References	130-2
130.3	Definitions	130-3
130.4	Scoping Report and Preliminary Field Review	130-5
130.5	Location Study Procedures	130-7
	130.5.1 Phase IA, Initial Evaluation of Alternatives	130-7
	130.5.2 Phase IB, Detailed Evaluation of Alternatives	130-7
	130.5.3 Combined Phase IA/IB Study	130-8
130.6	Phase IC, Environmental Documentation and Processing	130-8
130.7	Documentation	130-9
140	DESIGN SUBMITTALS	140-1
140.1	General	140-1
140.2	Design Process Overview	140-1
140.3	Plan Distribution and Inspection Invitation Lists	140-2
140.4	Preliminary Design	140-2
140.5	Grade and Drain	140-3
140.6	Plan-in-Hand	140-4
140.7	Plans, Specifications and Estimates (PS&E)	140-5
	140.7.1 PS&E Production Submittal Requirements	140-5
	140.7.2 PS&E Reviews	140-7
	140.7.2.1 Program Management Team Meeting (PMTM)	140-8
	140.7.2.2 Production Deadlines	140-8
	140.7.2.3 NMDOT's Policy for Independent Design Quality Control Reviews	140-8
	140.7.2.4 NMDOT's Policy for Design Quality Assurance Review	140-9
	140.7.2.5 Special Provisions at PS&E Review	140-12
	140.7.2.6 Preparation of Contract Documents	140-13
140.8	Production Plans	140-13
140.9	Formatting Guidelines	140-14
	140.9.1 Turnout Build Notes Examples	140-14
	140.9.2 Structure Build Notes Examples	140-15
	140.9.2.1 Cross Sections	140-16
140.10	Preparing Contract Documents	140-16
140.11	Documentation	140-18
150	PUBLIC INVOLVEMENT AND HEARINGS	150-1
150.1	General	150-1
150.2	References for Public Involvement Requirements and Processes	150-2
	150.2.1 NMDOT-Specific References	150-2

150.3	Definitions	150-3
150.4	General Procedures and Concepts	150-4
150.4.1	Long-Range Planning and Programming	150-5
150.4.2	Phases IA and IB of the Location Study Procedures	150-6
150.4.3	Phase IC Environmental Documentation.....	150-7
150.4.4	Phase ID Preliminary Design, Phase II Final Design, and Phase III Construction.....	150-8
150.5	Documentation	150-9
200	DOCUMENTATION	200-1
200.1	General	200-1
200.2	Purpose.....	200-1
200.3	Certification of Documents	200-1
200.4	Project Decisions Summary	200-1
200.5	Design Criteria	200-2
200.6	Design Documents	200-3
200.7	Alternative Project Delivery Methods.....	200-4
210	SPECIAL DOCUMENTATION PROCEDURES.....	210-1
210.1	General	210-1
210.2	Design Exceptions, Design Variances, and ADA Design Variances	210-1
210.2.1	Design Criteria Authority.....	210-1
210.2.2	Design Exception Criteria.....	210-2
210.2.3	Design Variance Criteria.....	210-4
210.2.3.1	Interstates and High Speed NHS Facilities	210-4
210.2.3.2	Low Speed NHS and Non-NHS Facilities.....	210-4
210.2.4	Evaluating and Analyzing Project Criteria	210-4
210.2.5	Documentation of Design Exceptions, Variances, and ADA Design Variances.....	210-6
210.2.6	Review and Approval	210-7
210.2.6.1	Federal Oversight Projects (Interstate Projects).....	210-7
210.2.6.2	Federal Oversight Delegated Projects (NHS Highways)	210-8
210.2.6.3	State Oversight Projects (Non-NHS Highways)	210-9
210.2.6.4	Non-NHS, 100 Percent State Funded (District Betterment) Projects	210-9
210.2.7	Repository and Follow-up Requirements.....	210-11
210.2.7.1	Record Keeping	210-11
210.2.7.2	Follow-up Requirements	210-11
210.2.8	Documentation	210-12
210.3	Interchange Access Change Request (IACR) Procedures.....	210-12
210.3.1	Legislation and Regulations	210-13
210.3.2	Applicability of FHWA Policy	210-15
210.3.3	Compliance with Federal Regulations	210-15
210.3.4	Determination of When an IACR is Required	210-16

iv Table of Contents

210.3.5	FHWA Internal Delegation of Authority for Approving an Access Request.....	210-18
210.3.6	Timing of an IACR Submittal	210-19
210.3.7	New Mexico IACR Process	210-19
210.3.7.1	Phase I.....	210-19
210.3.7.2	Phase II.....	210-20
210.3.7.3	Phase III.....	210-20
210.3.8	Methods and Assumptions Document.....	210-22
210.3.8.1	Proposed Project Description.....	210-22
210.3.8.2	Proposed Project Alternatives.....	210-23
210.3.8.3	Analysis Years/Periods	210-23
210.3.8.4	Project and Study Areas.....	210-23
210.3.8.5	Traffic Operations Analysis	210-23
210.3.8.6	Travel Forecast	210-24
210.3.8.7	Safety Issues.....	210-24
210.3.8.8	Selection of Measures of Effectiveness (MOEs)	210-24
210.3.8.9	Deviations/Justifications	210-25
210.3.9	FHWA Eight Policy Point Requirements.....	210-25
210.3.9.1	Policy Point 1	210-26
210.3.9.2	Policy Point 2	210-27
210.3.9.3	Policy Point 3	210-28
210.3.9.4	Policy Point 4	210-35
210.3.9.5	Policy Point 5	210-36
210.3.9.6	Policy Point 6	210-37
210.3.9.7	Policy Point 7	210-38
210.3.9.8	Policy Point 8	210-39
210.3.9.9	Attachments	210-40
210.3.10	General Information Required in an IACR.....	210-40
210.3.11	Locked Gate Access	210-42
210.3.11.1	Temporary Locked Gate Access.....	210-42
210.3.12	Role of the NMDOT Access Control Committee.....	210-43
220	VALUE ENGINEERING.....	220-1
220.1	General	220-1
220.2	References.....	220-2
220.2.1	Federal Laws and Codes.....	220-2
220.2.2	Design Guidance.....	220-2
220.3	Definitions	220-3
220.4	NMDOT VE Program.....	220-4
220.4.1	Selecting Projects for VE Analysis	220-4
220.4.1.1	Requirements	220-4
220.4.1.2	VE Analysis Timing.....	220-6

220.4.2	VE Study Team Members	220-9
220.4.2.1	Selecting a Team Leader	220-10
220.4.3	Scheduling VE Studies	220-10
220.4.4	NMDOT Statewide VE Program Reporting.....	220-11
220.5	NMDOT VE Procedure	220-12
220.5.1	VE Procedure Overview	220-12
220.5.2	Pre-Study Preparation	220-12
220.5.3	VE Study Reporting Requirements.....	220-13
220.5.4	Implementing VE Recommendations	220-14
220.6	VE Cost Proposal	220-15
220.7	Documentation	220-15
300	CADD STANDARDS.....	300-1
300.1	General	300-1
300.2	References	300-1
300.2.1	NMDOT CADD Drafting Standards	300-1
300.2.2	NMDOT CADD Resource Files	300-2
300.2.3	Other Drawing Resources	300-2
400	SURVEYING	400-1
400.1	General	400-1
400.2	References	400-1
500	RIGHT-OF-WAY	500-1
500.1	General	500-1
500.2	References	500-1
510	ACCESS CONTROL	510-1
510.1	General	510-1
510.2	References	510-2
510.3	Definitions	510-3
510.4	Requests for Access to a Controlled-Access Highway.....	510-4
510.4.1	Requests for Access Changes	510-5
510.4.2	Minor Modifications	510-5
510.4.3	New Access or Major Modifications.....	510-5
510.5	Clarifications of SAMM Content	510-8
510.5.1	Deceleration and Acceleration Lane Lengths	510-8
510.6	Considerations in Implementing Access Management.....	510-9
510.6.1	Legal Access	510-10
510.6.2	Functional Classification.....	510-10
510.6.3	Location and Area Type	510-11

510.6.4	Shared Access	510-12
510.6.4.1	Applications	510-12
510.6.4.2	Implementation	510-13
510.6.4.3	Recording Shared Access	510-13
510.6.5	Variances and Exceptions	510-14
600	INVESTIGATION OF SOILS, ROCK, AND SURFACING MATERIALS	600-1
600.1	General	600-1
600.2	References	600-1
600.3	Geotechnical Investigation Procedure	600-2
600.4	Permits and Traffic Control	600-2
600.5	Foundation Exploration Program	600-3
600.6	Subsurface Exploration Methods	600-3
600.7	Subsurface Exploration Requirements	600-3
600.8	Laboratory Testing	600-3
600.9	Structure Foundation Recommendations	600-3
600.10	Documentation	600-4
610	GEOTECHNICAL ANALYSIS	610-1
610.1	General	610-1
610.2	References	610-2
610.3	Geotechnical Scoping Report (Scoping Phase or Phase IA/IB)	610-3
610.4	Preliminary Geotechnical Report (Phase ID, Preliminary Design)	610-3
610.5	Preliminary Foundation Report (Phase ID, Preliminary Design)	610-5
610.6	Final Geotechnical Report (Phase II, Final Design)	610-6
610.7	Final Foundation Report (Phase II, Final Design)	610-7
610.8	Documentation	610-8
620	SURFACING MATERIALS AND PAVEMENT DESIGN	620-1
620.1	General	620-1
620.2	References	620-3
620.3	Pavement Designer Approval Procedure	620-3
620.4	Field Investigation	620-4
620.4.1	Safety and Utility Coordination	620-5
620.4.2	Minimum Requirements	620-6
620.4.3	Additional Requirements for Existing Roadways	620-7
620.4.4	Additional Requirements for New or Reconstruction Projects	620-7
620.5	Falling Weight Deflectometer Testing	620-8
620.5.1	Minimum Equipment Requirements	620-8
620.5.2	Testing Procedures	620-9
620.5.3	Final Report	620-9
620.6	Laboratory Testing	620-10

620.7	Flexible Pavement Design Procedure Policy.....	620-10
620.7.1	Minimum Pavement Design Life.....	620-10
620.7.2	Probabilistic Design Reliability.....	620-11
620.7.3	Serviceability Index.....	620-12
620.7.4	Regional Design Factors and Performance Graded (PG) Binder Grade.....	620-12
620.7.5	R-Value.....	620-18
620.7.6	NMDOT Structural Layer Coefficients.....	620-22
620.7.7	Minimum Flexible Pavement Total Layer Thickness for New and Rehabilitation Projects.....	620-23
620.7.8	Open Graded Friction Course.....	620-23
620.7.9	HMA Type Selection Recommendations.....	620-23
620.7.10	Asphalt Binder.....	620-24
620.7.11	Rehabilitation Project Considerations.....	620-26
620.7.12	Temporary Detour Design.....	620-27
620.7.13	Bridge Replacement Approach and Departure Design.....	620-27
620.8	Rigid Pavement Design Procedure Policy.....	620-28
620.8.1	Field Investigation.....	620-28
620.8.2	Laboratory Testing.....	620-28
620.8.3	Portland Cement Concrete.....	620-28
620.8.4	Compressive Strength.....	620-28
620.8.5	Serviceability.....	620-28
620.8.6	Loss of Support (LS) for Base Materials.....	620-28
620.8.7	Load Transfer Coefficient (J).....	620-29
620.8.8	Overall Drainage Coefficient (Cd).....	620-29
620.8.9	Other Design Considerations.....	620-30
620.8.10	Shoulders and Shoulder Widening.....	620-31
620.8.11	Rehabilitation Project Considerations.....	620-31
620.8.12	Bridge Replacement Approach and Departure Pavement Design.....	620-32
620.9	District-Developed Projects.....	620-32
620.9.1	Non-Federally Funded Project Pavement Designs.....	620-32
620.9.2	Federally Funded Project Pavement Designs.....	620-32
620.10	Life Cycle Cost Analysis.....	620-33
620.10.1	Alternative Bidding for Pavement Type Selection.....	620-34
620.10.1.1	Criteria 1.....	620-34
620.10.1.2	Criteria 2.....	620-34
620.10.2	Life Cycle Cost Analysis Determination.....	620-35
620.10.3	Pavement Rehabilitation Treatments and Year Intervals.....	620-35
620.10.4	Asphalt Cement Pavement Rehabilitation Average Unit Bid.....	620-36
620.10.5	Portland Cement Concrete Rehabilitation Average Unit Bid.....	620-36

630	GEOSYNTHETICS	630-1
630.1	General	630-1
	630.1.1 Design Approach	630-1
630.2	References	630-2
630.3	Definitions	630-4
630.4	Separation, Filtration, and Stabilization	630-4
630.5	Pavement Subgrade.....	630-6
630.6	Subsurface Drainage.....	630-6
630.7	Erosion	630-7
630.8	MSE Retaining Walls.....	630-8
630.9	Reinforced Soil Slopes	630-9
700	BRIDGES.....	700-1
700.1	General	700-1
700.2	References	700-3
710	RETAINING WALLS	710-1
710.1	General	710-1
710.2	References	710-2
710.3	Wall Types	710-2
	710.3.1 Cantilever Retaining Walls	710-5
	710.3.2 MSE Walls.....	710-5
	710.3.3 Gabion and Wire-Enclosed Tire Bale Retaining Walls	710-6
710.4	Design Process	710-6
	710.4.1 Preliminary Wall Layout.....	710-6
	710.4.2 Geotechnical Investigation and Analysis	710-7
	710.4.3 Detailed Design and Plan Development	710-7
720	NOISE BARRIERS.....	720-1
720.1	General	720-1
720.2	References	720-1
800	DRAINAGE.....	800-1
800.1	General	800-1
800.2	References	800-1
900	WORK ZONE SAFETY.....	900-1
900.1	General	900-1
	900.1.1 Policy Statement	900-1
900.2	References	900-2
	900.2.1 Federal/State Laws and Codes	900-2
	900.2.2 Design Guidance.....	900-2
	900.2.3 Reference List	900-3
	900.2.4 Web Resources.....	900-3

900.3	Definitions	900-4
900.4	Work Zone Safety and Mobility Rule (Subpart J)	900-5
900.4.1	Transportation Management Plans	900-6
900.4.1.1	Temporary Traffic Control.....	900-6
900.4.1.2	Transportation Operations	900-7
900.4.1.3	Public Information	900-7
900.4.2	Project Classification	900-8
900.4.2.1	Significant Project.....	900-8
900.4.2.2	Regionally Significant Project	900-8
900.4.2.3	Routine Project.....	900-9
900.4.3	Determining the Project Classification.....	900-9
900.4.4	Exemption Process	900-10
900.5	Temporary Traffic Control Devices Rule (Subpart K)	900-11
900.5.1	Providing Added Emphasis on Safety in Work Zone Policy.....	900-12
900.5.2	Use of Positive Protection Devices.....	900-13
900.5.2.1	Factors to Consider	900-15
900.5.3	Use of Exposure Control Measures.....	900-16
900.5.4	Use of Uniformed Law Enforcement.....	900-17
900.5.4.1	NMDOT Policy Statement on Uniformed Law Enforcement	900-18
900.5.5	Safe Entry and Exit for Work Vehicles and Equipment.....	900-19
900.5.6	Payment for Traffic Control Features and Operations	900-20
900.5.6.1	Basis of Payment.....	900-21
900.5.7	Quality Guidelines	900-22
900.5.7.1	Intermediate and Long-Term Duration.....	900-24
900.5.7.2	Inspections and Fines.....	900-25
900.5.7.3	Failure to Comply.....	900-25
900.5.7.4	Citation Process.....	900-26
900.6	Temporary Traffic Control Strategies	900-26
900.6.1	Two-Lane, Two-Way Operation (TLTWO) on One Roadway of a Normally Divided Highway.....	900-26
900.6.1.1	NMDOT Recommended Standards.....	900-27
900.7	Temporary Traffic Control Devices.....	900-28
900.7.1	Concrete Wall Barriers (CWB).....	900-28
900.7.1.1	Guidelines for CWB Use.....	900-29
900.7.1.2	CWB Anchoring Requirement/Deflection Distance	900-30
900.7.1.3	Intersection Sight Distance	900-31
900.7.1.4	CWB End Treatments in the Construction Clear Zone	900-31
900.7.2	Other Devices.....	900-31
900.7.2.1	Crash Cushion or Sand Barrels	900-32

900.8	Procedures.....	900-33
900.8.1	Project Planning Stage.....	900-33
900.8.2	Project Design Stage.....	900-34
900.8.3	Project Construction Stage.....	900-35
900.8.4	Performance Assessment Stage.....	900-35
900.9	Work Zone Design Standards.....	900-36
900.9.1	Lane Widths.....	900-36
900.9.2	Buffer Space and Shy Distance.....	900-36
900.9.3	Construction Clear Zone.....	900-36
900.9.4	Drop-Offs.....	900-36
900.9.4.1	Pavement Drop-Off for Activities within the Travel Lane.....	900-37
900.9.4.2	Pavement Drop-Off for Areas Adjacent to the Existing Travel Lane with Buffer Zones Less Than Six Feet in Width.....	900-37
900.9.4.3	Pavement Drop-Off for Areas Adjacent to Existing Travel Lane with Buffer Zones that Are Six Feet or More in Width.....	900-38
900.9.4.4	Pavement Drop-Offs for Point Drop-Offs, Such as Drop Inlets and Concrete Box Culvert Ends.....	900-38
900.9.4.5	Pavement Drop-Off Exceptions.....	900-38
900.9.4.6	Implementing Exceptions for Pavement Drop-Off Guidelines for Construction Zones.....	900-39
900.9.5	Reduced Speeds in Work Zones.....	900-39
900.9.5.1	Policy Statement for Reduced Speeds.....	900-40
900.9.5.2	Goals and Objectives for Reduced Speeds.....	900-40
900.9.5.3	Work Zone Speed Limit Procedure.....	900-41
900.9.5.4	Types of Work Zones/Efficient Speed Reduction.....	900-43
900.10	Accommodation for Pedestrians, Bicyclists and Other Vehicle Types.....	900-47
900.10.1	Work Zone Policy for Pedestrians and Bicycles.....	900-47
900.10.2	Pedestrians.....	900-47
900.10.2.1	Planning and Design.....	900-48
900.10.2.2	Temporary Routes.....	900-49
900.10.2.3	Protective Barriers.....	900-50
900.10.3	Bicycles.....	900-50
900.10.3.1	Planning and Design.....	900-51

1200.15.3.2	Accessible Handrails	1200-63
1200.15.3.3	Accessibility Criteria for Handrails	1200-64
1200.15.4	Shared Use Path (SUP)	1200-65
1200.15.5	Other Pedestrian Facilities, Features, and Elements	1200-65
1200.16	Illumination and Signing	1200-65
1200.17	Work Zone Pedestrian Accommodation.....	1200-65
1200.18	Documentation	1200-65
1210	BICYCLE FACILITIES	1210-1
1210.1	General	1210-1
1210.2	References.....	1210-2
1210.2.1	Federal/State Laws and Codes	1210-2
1210.2.2	Design Guidance.....	1210-2
1210.2.3	Reference Documents.....	1210-3
1210.3	Procedures.....	1210-3

LIST OF EXHIBITS

110-1	NMDOT Project Development Sequence - Scoping Report Part 1	110-5
110-2	NMDOT Project Development Sequence – Scoping Report, Part 2.....	110-7
110-3	NMDOT Project Development Sequence - Location Study Procedures, Part 1	110-9
110-4	NMDOT Project Development Sequence - Location Study Procedures, Part 2	110-11
140-1	Production Submittal Checklist.....	140-6
140-2	Design Quality Assurance Review Checklist.....	140-9
140-3	NMDOT Guidelines for Preparing Contract Documents	140-17
220-1	VE Study Phases	220-12
620-1	Minimum Number of Test Borings for Two-Lane Highway	620-6
620-2	Minimum Number of Test Borings for Four-Lane Highway.....	620-6
620-3	Minimum Structural Pavement Design Life Criteria	620-11
620-4	Minimum Probabilistic Design Reliability	620-11
620-5	District No. 1 Base PG Grades.....	620-13
620-6	District No. 2 Base PG Grades.....	620-14
620-7	District No. 3 Base PG Grades.....	620-15
620-8	District No. 4 Base PG Grades.....	620-15
620-9	District No. 5 Base PG Grades.....	620-16
620-10	District No. 6 Base PG Grades.....	620-17
620-11	PG Base Modification.....	620-18
620-12	Cement or Lime Slurry Stabilized Subgrade Strengths	620-20
620-13	Untreated Aggregate Base Course Strengths	620-21
620-14	Recommended Structural Layer Coefficients	620-22
620-15	Minimum Flexible Pavement Total Layer Thickness for New and Rehabilitation Projects Only	620-23
620-16	HMA Type Selection Recommendations.....	620-24
620-17	HMA Over Base Course Materials Selection Guidelines.....	620-25
620-18	HMA Over Existing HMA Materials Selection Guidelines	620-25
620-19	Tack and Prime Coat Application Rates.....	620-26
620-20	Typical Ranges of Loss of Subgrade Support Values	620-29
620-21	Load Transfer Coefficients	620-29
620-22	Overall Drainage Coefficients.....	620-29
630-1	Typical Permittivity (Ψ) Requirements (FHWA NHI-07-092)	630-6
900-1	Responsibility Table 1	900-13
900-2	Responsibility Table 2	900-16
900-3	Responsibility Table 3	900-17
900-4	Responsibility Table 4	900-18
900-5	Responsibility Table 5	900-20
900-6	NMDOT Pay Items for Traffic Control Devices*	900-22
900-7	Responsibility Table 6	900-22

LIST OF EXHIBITS (CONTINUED)

900-8	Acceptable Devices.....	900-23
900-9	Marginal Devices.....	900-23
900-10	Unacceptable Devices.....	900-24
900-11	Responsibility Table 7	900-26
900-12	Side Reflectors.....	900-32
900-13	TMP Components	900-34
900-14	Performance Assessment for Significant Projects.....	900-36
900-15	Pilot Study Traffic Control Plan Using Two-Stage Speed Reduction.....	900-44
900-16	Prior to Preliminary Design.....	900-54
900-17	Preliminary Design	900-54
900-18	Grade and Drain Inspection	900-54
900-19	Plan-in-Hand Inspection	900-55
900-20	PS&E.....	900-55
910-1	Suggested Spacing for Speed Limit Signs	910-13
910-2	Object Markers Allowable for Use on NMDOT Highways.....	910-19
910-3	End-of-Roadway Barricade	910-20
910-4	Interstate Control Cities.....	910-26
910-5	Acceptable Destinations for Listing on Supplemental Guide Signs	910-30
910-6	Spacing of Signs After an On-Ramp	910-32
910-7	Recommended Pavement Marking Materials for Bituminous Pavements	910-43
910-8	Recommended Pavement Marking Materials for Portland Cement Pavements.....	910-44
910-9	Advance Distance for No-Passing Zones	910-45
910-10	Positive Offset at Opposing Left-Turn Lanes.....	910-46
910-11	Crosswalk Design Elements.....	910-48
910-12	Diagonal Parking Minimum Maneuver Area	910-50
910-13	Do Not Block Intersection Markings	910-52
920-1	Volume Warrant Criteria for Lighting on Non-Access Controlled Routes	920-9
920-2	Lateral Light Distribution Patterns	920-16
920-3	Roadway Shielding Classification System Categories	920-17
920-4	Common Practice for Mounting Height/Lamp Lumen Output	920-22
920-5	Illumination Shadow Lines.....	920-31
1000-1	Roadway Cross Slope for New Construction or Reconstruction (4R) Projects.....	1000-8
1000-2	Roadway Cross Slope for Rehabilitation (3R) Projects	1000-9
1100-1	Guidelines for Determining the Potential Need for a Left-Turn Phase.....	1100-22
1100-2	Phase Identification by Directional Movement.....	1100-23
1100-3	Typical Phasing Schemes	1100-24
1100-4	Typical Railroad Preemption, 8-Phase	1100-29
1100-5	Typical Detector Loops.....	1100-44

LIST OF EXHIBITS (CONTINUED)

1100-6	Pedestrian Intervals.....	1100-55
1100-7	Recommended Pedestrian Clearance Times.....	1100-56
1100-8	Advanced Loop Detector Placement for High Speed Approaches.....	1100-59
1100-9	Advance Loop Detector Placement Dimensions.....	1100-59
1100-10	CTAD Dilemma Zone Coverage Requirement.....	1100-60
1100-11	CTAD with Warning Beacon Placement.....	1100-60
1200-1	Pedestrian Circulation Paths.....	1200-12
1200-2	Relationship Between PCPs and PARs.....	1200-15
1200-3	Obstructed PAR.....	1200-16
1200-4	Vertical Surface Discontinuities.....	1200-18
1200-5	Vertical Surface Discontinuities (Non-Compliant).....	1200-18
1200-6	Sidewalks with Buffers.....	1200-20
1200-7	Typical Sidewalk Designs.....	1200-21
1200-8	Typical Driveways.....	1200-23
1200-9	Perpendicular Curb Ramp.....	1200-24
1200-10	Perpendicular Curb Ramp Common Elements.....	1200-25
1200-11	Parallel Curb Ramp.....	1200-25
1200-12	Parallel Curb Ramp Common Elements.....	1200-26
1200-13	Combination Curb Ramps.....	1200-27
1200-14	Blended Transition.....	1200-28
1200-15	Ramp Running Slope.....	1200-29
1200-16	Approximate Ramp Lengths at 5% Slope.....	1200-30
1200-17	Approximate Ramp Lengths at 6% Slope.....	1200-31
1200-18	Approximate Ramp Lengths at 7% Slope.....	1200-32
1200-19	Approximate Ramp Lengths at 8% Slope.....	1200-33
1200-20	Approximate Ramp Lengths at 8.3% Slope.....	1200-34
1200-21	Approximate Ramp Lengths at 9% Slope.....	1200-35
1200-22	Approximate Ramp Lengths at 10% Slope.....	1200-36
1200-23	Gutter Counter Slope Illustration.....	1200-39
1200-24	Typical Curb Ramp Drainage.....	1200-41
1200-25	Unmarked Crosswalks.....	1200-42
1200-26	Marked Pedestrian Crossing.....	1200-44
1200-27	Decorative Crosswalk.....	1200-45
1200-28	Midblock Pedestrian Crossing.....	1200-46
1200-29	Obstructed Line of Sight at Intersection.....	1200-47
1200-30	Improved Line of Sight at Intersection.....	1200-48
1200-31	Curb Extension Examples.....	1200-49
1200-32	Raised Islands With Curb Ramps and Pedestrian Cut-Throughs.....	1200-50

LIST OF EXHIBITS (CONTINUED)

1200-33	Typical Pedestrian Pushbutton.....	1200-52
1200-34	Clear Space Parallel and Forward Approach Orientation.....	1200-53
1200-35	Accessible Pedestrian Signal Pushbutton.....	1200-54
1200-36	Pedestrian At-Grade Rail Crossings.....	1200-55
1200-37	Pedestrian Rail Warning Device.....	1200-56
1200-38	Pedestrian Bridges.....	1200-58
1200-39	Pedestrian Tunnel.....	1200-59
1200-40	Ramp With Accessible Handrails.....	1200-62
1210-1	State Bicycle Route Sign (M1-8-NM).....	1210-4

Acronyms and Key Terms

3R	resurfacing, restoration, and rehabilitation	DHV	design hourly volume
		DMSs	dynamic message signs
		DOJ	United States Department of Justice
		DWS	detectable warning surface
	3		D
	A		E
AADT	average annual daily traffic	EA	Environmental Assessment
AASHTO	American Association of State Highway Transportation Officials	EF	equipment factor
ADA	Americans with Disabilities Act	EIS	Environmental Impact Statement
ADAAG	ADA Accessibility Guidelines	ELRS	edge line rumble strips
ADT	average daily traffic	EOP	end of project
ANSI	American National Standards Institute	ESALs	equivalent single-axle loads
AOS	apparent opening size	ETA	estimated time of arrival
APS	accessible pedestrian signal		
AREMA	American Railway Engineering and Maintenance-of-Way Association		F
ASTM	American Society for Testing and Materials		
ATCS	adaptive traffic control system	FAST	Fixing America's Surface Transportation Act
ATSSA	American Traffic Safety Services Association	FHWA	Federal Highway Administration
		FHWA HQ	FHWA Headquarters
AWG	american wire gauge	FHWA-NM	New Mexico Division of the Federal Highway Administration
	B	FONSI	Finding of No Significant Impact
BBS	battery backup system	FRA	Federal Railroad Administration
BMPs	best management practices	FT	feet
BNSF	BNSF Railway		
BOP	beginning of project		G
BPE	bicycle, pedestrian and equestrian		
BUG	backlight, upright, and glare	GDI	Grade and Drain Inspection
		GIS	geographic information system
		GPS	global positioning system
	C		H
CAC	citizens advisory committee		
CADD	computer-aided drafting and design	HAR	highway advisory radio
CCTV	closed circuit television system	HCM	Highway Capacity Manual
CE	Categorical Exclusion	HCS	Highway Capacity Software
CFR	Code of Federal Regulations	HMA	hot mix asphalt
CIR	cold in-situ recycled	HPS	high-pressure sodium
CLE	Construction Liaison Engineer	HSIP	Highway Safety Improvement Program
CLRS	centerline rumble strips		
CSS	context sensitive solutions		
CTADs	continuous tracking advance detectors	IACR	interchange access change request
CVS	Certified Value Specialist	IDD	Infrastructure Design Directive
CWA	Clean Water Act	IESNA	Illuminating Engineering Society of North America
CWB	concrete wall barrier		
		IMSA	International Municipal Signal Association
		ISA	International Symbol of Accessibility
		ITE	Institute of Transportation Engineers
		ITS	Intelligent Transportation System

	L				P
LCCA	life cycle cost analysis		P.E.	professional engineer	
LDD	luminaire dirt depreciation		PAR	pedestrian access route	
LEDs	light emitting diodes		PCCP	Portland cement concrete pavement	
LLD	lamp lumen depreciation factor		PCP	pedestrian circulation path	
LOS	level of service		PDE	Project Development Engineer	
LRFD	Load and Resistance Factor Design		PDI	Preliminary Design Inspection	
			PG	performance graded	
	M		PIP	public involvement plan	
MAP-21	Moving Ahead for Progress in the 21st Century Act		PMTM	Program Management Team Meeting	
MF	maintenance factor		PRIIA	Passenger Rail Investment and Improvement Act of 2008	
MH	mounting height				
MMA	methyl methacrylate		PROWAG	Accessibility Guidelines for Pedestrian Facilities in the Public Right-of-Way	
MOEs	measures of effectiveness		PS&E	Plans, Specifications, and Estimates	
MOU	memorandum of understanding		psi	pounds per square inch	
mph	miles per hour		PTOE	Professional Traffic Operations Engineer	
MPOs	Metropolitan Planning Organizations				
MSE	mechanically-stabilized earth				
MTPs	Metropolitan Transportation Plans		RF	reduction factor	
MUTCD	Manual on Uniform Traffic Control Devices for Streets and Highways		RFP	request for proposal	
			ROD	Record of Decision	
	N		RPM	raised pavement marker	
NACTO	National Association of City Transportation Officials		RRFB	rectangular rapid flashing beacon	
NCHRP	National Cooperative Highway Research Program		RTIPs	Regional Transportation Improvement Programs	
NEC	National Electrical Code		RTPOs	Regional Transportation Planning Organizations	
NEMA	National Electrical Manufacturer's Association		RTPs	Regional Transportation Plans	
NEPA	National Environmental Policy Act		RWIS	Road Weather Information Stations	
NFPA	National Fire Protection Association				
NHI	National Highway Institute		SAFETEA-LU	Safe Accountable Flexible Efficient Transportation Equity Act: A Legacy for Users	
NHS	National Highway System		SAMM	State Access Management Manual	
NMAC	New Mexico Administrative Code		SAVE	Society of American Value Engineers	
NMDCA	New Mexico Department of Cultural Affairs		SDDCTEA	Surface Distribution and Deployment Command Transportation Engineering Agency	
NMDOT	New Mexico Department of Transportation				
NMPRC	New Mexico Public Regulation Commission		SHRP	Strategic Highway Research Program	
NMSA	New Mexico Statutes Annotated		SMA	stone matrix asphalt	
NPDES	National Pollutant Discharge Elimination System		SNPRM	Supplemental Notice of Proposed Rulemaking	
NPS	National Park Service		SRS	shoulder rumble strips	
			SSD	stopping sight distance	
	O		STIP	Statewide Transportation Improvement Program	
OGFC	open graded friction course		SUP	shared use paths	
OSHA	Occupational Safety and Health Administration		SWPPPs	Storm Water Pollution Prevention Plans	

T

TAC	Technical Advisory Committee
TCP	Traffic Control Plan
TIP	Transportation Improvement Program
TMA	Transportation Management Area
TMP	Transportation Management Plan
TODS	tourist-oriented directional signs
TRB	Transportation Research Board
TSE	Technical Support Engineer
TTC	temporary traffic control
TTCP	Technician Training and Certification Program
TWG	Technical Working Group

U

U.S.C.	United States Code
UFAS	Uniform Federal Accessibility Standards
UP	Union Pacific Railroad
UPS	uninterrupted power supply
USDOT	United States Department of Transportation
UTBC	untreated aggregate base course
UVC	Uniform Vehicle Code

V

VDS	vehicle detection systems
VE	value engineering

W

WGS84	World Geodetic System 1984
WMA	warm mix asphalt

Z

ZOI	zone of intrusion
