Attached are the Average Unit Bid ("AUB") Price Listings (English and Metric) for the period of January 1999 thru December 1999. These runs constitute the statewide AUB pricing for all projects awarded. The items with their respective quantities and pricing for the metric projects have been converted to English equivalents and are included in the AUB Price Listing (English). The same application is included in the AUB Price Listing (Metric).

The Project Development Engineer ("PDE") is to utilize this information only as a guide for pricing items. The PDE shall price items based on project location, quantity, difficulty in performing the work and any historical information deemed necessary to reflect the market price of bid items. The attached listings are considered to be some of the historical information which can be utilized. This information will be updated on a semi-annual basis and will soon be available on the Department's Web Site.

If you have any questions, contact the P. S. & E. Section at 505.827.5500.
