The bidder may be required to provide the State with field test results and surveys, which will show conclusively:

- a) Maintenance and reliability experience of units in service for at least one (1) year
- b) Other data on actual performance of equipment, which in the opinion of the bidder will assist the State in selecting the most effective cost efficient unit offered by the bidder.

Payment or Acceptance Not Conclusive:

No payment made under this contract shall be conclusive evidence of the performance of the contract, either wholly or in part, and that no payment made for the delivery of the items in whole or in part shall be construed as an acceptance of defective work or improper materials, nor relieve the bidder from corrections of the defects. The final acceptance shall not be binding upon the ordering agency or the State, nor conclusive, should it subsequently develop the bidder had furnished inferior items or had departed from the specifications

and/or the terms of the contract. Should such conditions become evident, the ordering agency shall have the right, notwithstanding final acceptance and payment, to cause the item(s) to be properly furnished in accordance with the specifications (and drawings, if any) at the cost and expense of the bidder.
