Please be aware this measure is not intended to allow any increase in profit margin, only to compensate for an actual cost increase. Price decreases as well shall apply. If the vendor's prices are reduced for any reason, users shall receive the benefit of such reductions. Price increases and/or decreases will not be retroactive to orders already in-house or back-ordered. Orders will be filled at the price in effect of the date of

the receipt of the order by the vendor.

All requests for price increases must include the following information:

- 1) Contract Item Number
- 2) Current Item Price
- 3) Proposed New Price and/or Percentage of Increase

Vendor must also supply a Letter from the Manufacture addressed to the vendor. The letter must state that they are increasing to price from the factory to the vendor, as well as the reason for the increase.

Method of Award:

To the lowest responsible bidder meeting or exceeding specifications, terms and conditions. The state reserves the right to award to multiple vendors per item, whichever, in his/her judgment, best serves the interest of the state of New Mexico.

Vendors may bid up to three models for each item and are encouraged to do, so long as they meet the minimum specification. NMDOT does not set a limit for exceeding the minimum specifications and welcomes multiple models with different capabilities.

Primary and alternate models must be submitted as a separate and complete Bid Packet with their own Cover Sheet found on page one of the ITB, to be considered valid. Each packet must also be labeled as Primary or Alternate.

Any item bid without a Cover Sheet will not be considered!

Intent of Specifications:

The specifications are intended to describe equipment for use by the ordering agency, which will operate efficiently and safely. The design specifications incorporated herein are intended to describe such unit, and to set forth minimal performance parameters required by the State of New Mexico. Any references herein to a particular make or model number are intended not to be restrictive but to set forth an acceptable level of quality and design. The State reserves the right to accept minor variances in product design and/or operation offered by bidders if such acceptance is determined to be in the best interest of the State.

Qualified Bidders:

Bids may be accepted from manufacturers and/or factory authorized dealers who are able and willing to provide responsive service to the ordering agency during the warranty period and the extended warranty period if required. Bidders must be in a position to offer the lowest cost/highest effectiveness, completely assembled units meeting or exceeding the minimum specifications contained herein.

When additional equipment (components) are required to complete a bid package which is not normally supplied by the bidder, such equipment shall be supplied by an authorized equipment supplier, but shall be the full responsibility of the bidder.

Inspection of Work:

Representatives of the State Purchasing Division or the ordering agencies shall have access, at any reasonable time, to the bidder's and manufacturer's facilities for the purposes of inspection during periods of manufacture

Late Delivery:

It is expressly understood and agreed that, as a result of the public interest, and because of the monetary losses which may be sustained by the State, as a result of failure to deliver the equipment described in the contract on time, that time is of the essence in the performance of this contract. The following delivery terms and conditions apply to Miscellaneous Equipment described in specifications.

Above noted equipment shall be delivered within 90 working days of bidder's receipt of order. If the above noted equipment is to be installed on a separate unit supplied by the user agency, then it shall be delivered within 90 working days of bidder's receipt of said unit. In the event of failure of the bidder to deliver in accordance with this requirement, the bidder shall be liable to the user agency and/or the State for late delivery penalties in the amount of \$25.00 per unit per day.

Documented strikes, national emergencies, or acts of God are the only justification for delay in delivery. Acts of God are defined as unusual, sudden, and unexpected manifestations of the forces of nature, the effect(s) of which could not have been prevented by reasonable human foresight, pains, and care.

At the option of the State Purchasing Director, the user agency may invoke the Default Provisions of this contract contained in the General Conditions and Instructions to Bidders in addition to any liquidated damages as outlined above.

Motor Vehicle Regulations:

Unit(s) ordered shall be furnished with all equipment necessary to comply with all applicable rules and regulations of the New Mexico Department of Motor Vehicles and shall be in compliance with Safety Standards required by the Federal Motor Vehicle Safety Standards established by the National Traffic Safety Administration, and the Safety Standards required by OSHA and applicable ANSI standards and reference to the operation of such vehicles within the State of New Mexico.

It is understood that unit(s) offered in response to this request for bids will be of new design. In the event that unforeseen operational problems occur because of new design, the manufacturer shall warrant that it will retrofit at no cost to the ordering agency, any improvements developed to correct problems of repeated or early failure in meeting acceptable performance standards for a period of one year from date of delivery.

- b) Other data on actual performance of equipment, which in the opinion of the bidder will assist the State in selecting the most effective cost efficient unit offered by the bidder.

Payment or Acceptance Not Conclusive:

No payment made under this contract shall be conclusive evidence of the performance of the contract, either wholly or in part, and that no payment made for the delivery of the items in whole or in part shall be construed as an acceptance of defective work or improper materials, nor relieve the bidder from corrections of the defects. The final acceptance shall not be binding upon the ordering agency or the State, nor conclusive, should it subsequently develop the bidder had furnished inferior items or had departed from the specifications and/or the terms of the contract. Should such conditions become evident, the ordering agency shall have the right, notwithstanding final acceptance and payment, to cause the item(s) to be properly furnished in accordance with the specifications (and drawings, if any) at the cost and expense of the bidder.
