In order for the Department to ensure transparency in its procurement process, that the process is fair, equitable, and that the process complies with the Procurement Code, any inquiries or requests regarding this RFP, the underlying procurement, or the procurement process must be submitted to the Procurement Manager in writing. Offerors will contact ONLY the Procurement Manager regarding the RFP, the underlying procurement and procurement process. Other state employees or Professional Services Selections Committee (PSSC) members do not have the authority to respond on behalf of the NMDOT. Any communication regarding this procurement or the procurement process that is not with the Procurement Manager is not in compliance with this directive and will result in disqualification of the Offeror's proposal in accordance with 1.4.1.69 NMAC.

E. DEFINITION OF TERMINOLOGY

This section contains definitions and abbreviations that are used throughout this procurement document. Definitions should be read consistent with the Procurement Code, NMSA 1978, Sections

C. GENERAL REQUIREMENTS

This procurement will be conducted in accordance with Chapter 13, NMSA 1978 and 1.4.1 NMAC.

1. Acceptance of Conditions Governing the Procurement

Offerors must indicate their acceptance of the Conditions Governing the Procurement section in the letter of transmittal. Submission of a proposal constitutes acceptance of the Evaluation Factors contained in Section V of this RFP.

2. Overhead Rate Compliance and Contractual Eligibility for Engineering & Design Consultants

State departments of transportation are required to provide reasonable assurance that architectural and engineering consulting firms are in compliance with the federal cost principles on Federal-Aid Highway Program (FAHP) funds. A procedure has been developed by the NMDOT Office of the Inspector General (see links below), which will determine, with reasonable assurance, engineering and design consultant compliance with applicable cost principles contained in the Federal Acquisition Regulations (48 CFR part 31), specified under the 23 USC Section 112(b)(2) and defined in 23 CFR Section 172.3. The procedure explains what is to be submitted, how it will be submitted, when it's required and additional resources for questions. Eligibility for NMDOT engineering & design contracts is dependent upon the consultant's compliance with this procedure. A list of eligible consultants will be updated by the fifth day of each month and posted on the NMDOT public website at:

https://dot.state.nm.us/content/dam/nmdot/OIG/Consultant_Overhead_List.pdf

In all cases, Consultants must follow this procedure and receive eligibility acknowledgement from the NMDOT Office of the Inspector General (OIG) prior to the proposal deadline for this RFP. Eligibility shall be evidenced by the inclusion of the Consultant on the eligibility list posted on the NMDOT public website and/or an email acknowledgement of eligibility from the NMDOT OIG. Engineering and Design Consultant firms who do not adhere to the requirements of this section shall be determined non-responsive and their proposal will be rejected from consideration for award.

The indirect cost rate approved by the OIG at the time of proposal deadline date will be the rate recognized for the duration of the contract, which includes all term extensions.

3. Incurring Cost

Any cost incurred by the potential Offeror in preparation, transmittal, and/or presentation of any proposal or material submitted in response to this RFP shall be borne solely by the Offeror. Any cost incurred by the Offeror for set up and demonstration of the proposed equipment and/or system shall be borne solely by the Offeror.

4. Prime Contractor Responsibility

Any contract that may result from this RFP shall specify that the prime Contractor is solely responsible for fulfillment of the contract with the Department. The Department will make contract payments only to the prime Contractor.

5. Subcontractors/Consent

The use of subcontractors is allowed. The prime Contractor shall be wholly responsible for the entire performance of the contract whether or not subcontractors are used. 8. Offerors' Rights to Withdraw Proposal

Offerors will be allowed to withdraw their proposals at any time prior to the deadline for receipt of proposals. 10. Disclosure of Proposal Contents

A. Proposals will be kept confidential until negotiations and the award are completed by the Department. At that time, all proposals and documents pertaining to the proposals will be open to the public, except for material that is clearly marked proprietary or confidential. The Procurement Manager will not disclose or make public any pages of a proposal on which the potential Offeror has stamped or imprinted "proprietary" or "confidential" subject to the following requirements:

1. Proprietary or confidential data shall be readily separable from the proposal in order to facilitate eventual public inspection of the non-confidential portion of the proposal.
2. Confidential data is restricted to:
 - a. confidential financial information concerning the Offeror's organization; and

b. data that qualifies as a trade secret in accordance with the Uniform Trade Secrets Act, NMSA 1978 § 57-3A-1 to 57-3A-7.

B. If a request is received for disclosure of data for which an Offeror has made a written request for confidentiality, the Department shall examine the Offeror's request and make a written determination that specifies which portions of the proposal should be disclosed. Unless the Offeror takes legal action to prevent the disclosure, the proposal will be so disclosed. The proposal shall be open to public inspection subject to any continuing prohibition on the disclosure of confidential data.

Please note: The price of products offered or the cost of services proposed shall not be designated as proprietary or confidential information.

11. No Obligation

This RFP in no manner obligates the Department or any of its programs to the use of any Offeror's services until a valid written contract is awarded and approved by appropriate authorities.

12. Termination

This RFP may be canceled at any time, and any and all proposals may be rejected in whole or in part when the Procurement Manager determines such action to be in the best interest of the Department.

13. Sufficient Appropriation

Any contract awarded as a result of the RFP process may be terminated if sufficient appropriations or authorizations do not exist. Such termination will be effected by sending written notice to the Contractor. The Department's decision as to whether sufficient appropriations and authorizations are available will be accepted by the Contractor as final.

14. Legal Review

The Department requires that all Offerors agree to be bound by the General Requirements contained in this RFP. Any Offeror concerns must be promptly brought to the attention of the Procurement Manager.

15. Governing Law

This RFP and any contract with an Offeror which may result from this procurement shall be governed by the laws of the State of New Mexico.

16. Prohibited Bidding

Pursuant to NMSA 1978, Section 10-16-13, the Department shall not accept a bid or proposal from a person who directly participated in the preparation of specifications, qualifications, or evaluation criteria on which the specific competitive bid or proposal was based. A person in this context includes the person's agents, employees, or representatives.

A person accepting a bid or proposal on behalf of a state agency or political subdivision of this State shall exercise due diligence to ensure compliance with this section.

17. Consent to Jurisdiction and Venue

If a recipient of this RFP chooses to offer a proposal, the Offeror understands and agrees that by submitting such proposal to the Department, they consent to and agree to the exclusive jurisdiction of the Courts of the State of New Mexico for the resolution of any disputes arising under or resulting from contract selection and/or approval process in response to this RFP, or any dispute arising under or resulting from the performance of any contract resulting from this RFP that cannot be resolved informally. The Offeror, by submitting such proposal, waives any objection to the personal jurisdiction of the Courts of the State of New Mexico over the Offeror. By submitting such proposal, the Offeror agrees and consents that the Santa Fe County District Court shall have venue and jurisdiction over all matters arising or derived from this RFP, including a resulting contract.

18. Basis for Proposal

Only information supplied by NMDOT in writing through the Procurement Manager or in this RFP should be used as the basis for the preparation of Offeror proposals.

19. Contract Terms and Conditions

The negotiated contract between the Department and the Contractor will follow the format specified by the Department and contain the terms and conditions as set forth in Appendix B (Contract for Federal Funding). The Department reserves the right to negotiate with a successful Offeror provisions in addition to those contained in this RFP.

The Department discourages exceptions from the contract terms and conditions as set forth in the RFP sample contract at Appendix B. Such exceptions may cause a proposal to be rejected as non-responsive when, in the sole judgment of the Department, the proposal appears to be conditioned on the exception or correction of what is deemed to be a deficiency, or an unacceptable exception is proposed which would require a substantial proposal rewrite to correct.

Should an Offeror object to any of the Department's terms and conditions, as referenced in this Section or contained in Appendix B, that Offeror must propose specific alternative language. The Department may or may not accept the alternative language. General references to the Offeror's terms and conditions or attempts at complete substitutions are not acceptable to Department and will result in disqualification of the Offeror's proposal.

The contents of this RFP, as revised and/or supplemented, and the successful Offeror's proposal will be incorporated into and become part of the negotiated contract. In the event the Offeror's proposal conflicts with the RFP, the RFP governs. In the event the executed contract conflicts with the proposal, the executed contract governs.

Offerors must provide a brief discussion of the purpose and impact, if any, of each proposed change followed by the specific proposed alternate wording.

If an Offeror fails to propose any alternate terms and conditions during the procurement process, i.e., the RFP process prior to selection as successful Offeror, then no proposed alternate terms and conditions will be considered later during the negotiation process. From time to time, the Department shall receive interpretations from USDOT, which shall be binding on the Department, sub-recipients, and contractors.

The responsible Offeror(s) whose proposal is most advantageous to the Department, taking into consideration the evaluation factors in Section V and successful negotiations, will be recommended for contract award as specified in Section II, Paragraph B.12. *Please note that a serious deficiency in the response to any one factor may be grounds for rejection regardless of overall score.*
5. In the event of oral presentations, responsible Offerors with the highest scores resulting from the written evaluations will be selected as finalist Offerors. Points awarded from the oral presentations will be added to the previously assigned points from the written evaluations to attain final scores.

APPENDIX A TO RFP 22-10 PROJECT INTRODUCTION AND SCOPE OF WORK

Scope of Work for CN U900158, Statewide On-Call Hazmat Investigations

The NMDOT intends to award contract(s) under this RFP to provide Hazardous Material Investigation services to address project development needs. Once a need is identified, the Department will issue to the Consultant, a written project assignment outlining the services required. Upon receiving the Department's request for services, the Consultant shall promptly provide the Department with a work plan and an estimate of man-hours and costs. Each project will be negotiated on a task by task basis.

SCOPE OF SERVICES

The scope of services for this contract shall consist of investigations that support the mission of the NMDOT Hazardous Material Investigation Bureau (HMIB). The assessments and investigations fulfill two purposes: 1) “*all appropriate inquiry*” to allow the NMDOT to qualify for landowner liability protections, and 2) to reveal contamination that will affect construction so that methods can be developed to protect workers and the environment from exposure.

The investigations represent an increasing level of focus for projects varying in size from entire corridors to discrete properties. The scope of services are described below and include an Initial Site Assessment (ISA), Preliminary Site Investigation (PSI), Detailed Site Investigation (DSI), surveys, and other tasks as needed. The scope of services will be conducted at specified locations, as needed.

1. Initial Site Assessment (ISA)

An ISA is a non-invasive investigation during which the past and present on- and off-site property usages and conditions are identified and assessed for the potential to release hazardous substances or petroleum products onto properties of interest to the NMDOT or to the environment. For this effort, the Consultant will:

- a. Develop an appropriate technical approach for the assigned task based on the project location and on the NMDOT’s conceptual plan;
- b. Adhere to the most current ASTM standard practice for Phase I environmental site assessments (designated E 1527), modified to accommodate projects ranging in length from single intersections to multiple-mile corridors;
- c. Assign an Environmental Professional, as defined by the USEPA in their final rule (40 CFR Part 312), to oversee the completion of the ISA;
- d. In addition to all ASTM-required reporting components, the Consultant must include in their report:

- i. To the extent possible, a detailed description of the NMDOT's conceptual plan;
 - ii. Bridges within the project termini (including bridge number and general building materials),
 - iii. Utilities within the project termini (buried and overhead, including water supply wells and septic systems) and of what they are made,

The prospective contractor must disclose whether they, a family member, or a representative of the prospective contractor has made a campaign contribution to an applicable public official of the state or a local public body during the two years prior to the date on which the contractor submits a proposal or, in the case of a sole source or small purchase contract, the two years prior to the date the contractor signs the contract, if the aggregate total of contributions given by the prospective contractor, a family member or a representative of the prospective contractor to the public official exceeds two hundred and fifty dollars (\$250) over the two year period.

Furthermore, the state agency or local public body may cancel a solicitation or proposed award for a proposed contract pursuant to NMSA 1978, Section 13-1-181 or a contract that is executed may be ratified or terminated pursuant to NMSA 1978, Section 13-1-182 of the Procurement Code if: 1) a prospective contractor, a family member of the prospective contractor, or a representative of the prospective contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process or 2) a prospective contractor fails to submit a fully completed disclosure statement pursuant to the law.
